

# STORMSHIELD

The European choice for cybersecurity

## CYBER SERENITY

your **goal**, our **mission**  
your **imperatives**, our **vision**

# CYBER-SERENITY: OUR COMMITMENT TO YOUR SECURITY

In an increasingly digital corporate environment, **cybersecurity is too critical** to be limited to a catalogue of security solutions. If we are to rise to the challenge and respond to this rampant, multi-faceted threat, we need to **consider cybersecurity and all its implications**: technical, human, economic... and strategic.

Here at Stormshield, we believe that cybersecurity goes far beyond the **protection of IT resources and data**. The **critical infrastructure we are protecting** is in turn, now and increasingly in future, **also protecting resources and people**.

Our focus, strategy and approach are designed with one goal in mind: **to give you the confidence** you need to maximise your productivity and accelerate your growth. To help you concentrate on the issues that matter to you, we work constantly to provide a tailored service that leverages our skills and understanding of your needs to **give you the peace of mind you need**.

Cyber-serenity: the product of our work to help you nurture social, environmental and economic stability in your company... and beyond. More than just an ambition or a course of action, **cyber-security is deeply ingrained in our DNA**. It is our **very reason for being**, and what drives us to create integrated, robust solutions recognised by ANSSI, NATO and the European Union.

We're committed to offering you the highest level of recognition and certification and unparalleled hands-on support for each of our solutions... **and that promise is what makes us different!**

Pierre-Yves Hentzen  
CEO of Stormshield

## **CYBER-SERENITY:** OUR VALUES, PROTECTING YOU

*A 100% subsidiary of Airbus CyberSecurity, Stormshield is proud of its European roots and the strong values it draws from them:*

*industrial expertise, close customer relationships, and a desire to find solutions for expectations that are by nature sensitive, critical and focused.*

### BUILDING **COLLABORATIVE** SUCCESS

From each partnership, Stormshield acquires new expertise which it uses to feed into future projects. This drive to co-construct tailored solutions with our technological partners and customers, while constantly striving towards excellence, offers the best guarantee of effective protection against cyber risks.

### FORGING A TRUST-BASED RELATIONSHIP **BUILT ON ROBUST SOLUTIONS**

Maintaining a daily presence capable of providing relevant, open answers to security issues is first of all a question of creating a unique relationship with each of our customers, based on active listening and constant support. Regardless of the size of your company, Stormshield experts are committed to taking an active role in helping you to grow.

### CONCENTRATING **ON YOUR NEEDS**

Because the concepts of cybersecurity and agility are now inseparable, Stormshield offers solutions which address your need to stay focused on your business. Solutions which are designed never to interfere with your work, building the confidence you need to grow.

*“Our mission: to provide cyber-serenity to organisations which operate critical and operational infrastructure”*

# CYBER-SERENITY: OUR ORGANISATION HELPING WITH YOUR CHALLENGES

## YOUR REALITY

**48%** of IS/digital departments have reported suffering one or more attacks in 2019, a 13% increase over 2018 <sup>1</sup>.

**37%** of these same departments state that digital transformation is having a negative or average impact on their information system's security.

Users' lack of awareness of cybersecurity issues is ranked in **2<sup>nd</sup>** position among company concerns.

And the concern is justified: **63%** of security incidents suffered by organisations were caused by employees <sup>2</sup>.

## OUR PROMISE

TO train  
MORE than  
**1,000**

people every year  
to meet your  
needs

To make  
use of  
more than  
**900**

active partners  
to provide you  
with personalised  
service

TO MAINTAIN OUR PRODUCT  
CERTIFICATIONS AT THE HIGHEST  
EUROPEAN LEVELS

**24/7**

to offer you technical  
support around the  
clock

# CYBER-SERENITY: OUR EXPERTISE HELPING WITH YOUR CHALLENGES

Our expertise enables us **to support companies dealing with highly critical cybersecurity issues**. When IT and OT become key factors **in economic, social, technical and human terms**, responsive and resilient action is required. To **help you find cyber-serenity**, we combine our **joint expertise and work passionately** to develop **sustainable protection against the most advanced threats**.

## Protecting physical networks and virtualised infrastructure **STORMSHIELD NETWORK SECURITY**

A full range of new-generation UTMs and industrial firewalls, available in physical or virtual versions. Suited to all types of environment of varying levels of criticality and sensitivity, these products offer unrivalled levels of modularity, scalability, high performance and business continuity.

## Protecting data **STORMSHIELD DATA SECURITY**

A software solution providing end-to-end confidentiality of sensitive data, regardless of the media (emails, USB keys and file servers), terminals (workstations and mobile) and applications ("on-premise" or cloud) on which this data is stored or shared.

### INDUSTRY

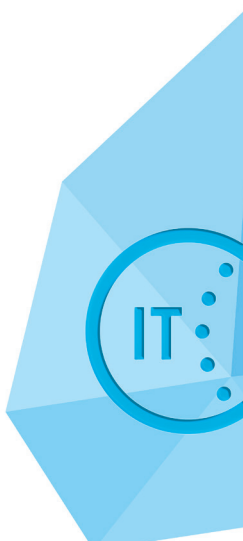

*Securing  
40 sites for a government  
client in Dubai, with SNI40 industrial firewalls and centralised  
management of all devices in the Stormshield Management  
Center (SMC) console.*

### HEALTH

*Securing  
the networks of 5 hospitals and  
implementing the Stormshield Management Center (SMC)  
centralised administration console on behalf of a French hospital  
group in the Auvergne-Rhône-Alpes region.*

**Our flexible, agile protection solutions adapt to your infrastructure and remain transparent to your users,** ensuring they don't become an impediment to productivity.  
Our protection is built on **trusted technologies and a portfolio of mature products providing a comprehensive solution to the security needs of IT/OT environments.**

## Protecting workstations and servers **STORMSHIELD ENDPOINT SECURITY**

Standalone protection dedicated to critical, non-connected environments, based on a unique behavioural approach. Using proactive security mechanisms, the solution blocks zero-day threats and advanced attacks without the need for signatures.

These advanced, trusted solutions  
**ARE CERTIFIED TO THE HIGHEST EUROPEAN LEVEL**

## ENERGY

*Implementation of the Stormshield Data Security solution for a major French energy player, with the goal of improving data confidentiality for all of its 60,000 user workstations.*

## DEFENCE

*Integration of Stormshield solutions to secure critical communications infrastructures for emergency, military and police services in countries including Hungary, Belgium and Qatar.*

# CYBER-SERENITY: OUR STRENGTHS: THE SOURCE OF YOUR SERENITY

Our skills are built on the ability to forge a uniquely close customer relationship.

Our teams, made up of technology enthusiasts driven by a desire for excellence, provide close support at all times. **The responsiveness and agility of Stormshield's customer service and support** are also key assets.

The maturity of Stormshield's **technologies, and our ability to deliver solutions covering both IT and OT, are strengths** that will give you a unique technological advantage for tackling your **cybersecurity** challenges, whether in industrial, critical or sensitive environments, or simply because you won't settle for less than the best.

Because providing cyber-serenity for your business calls for **constant yet discreet monitoring**, Stormshield's expert teams are constantly improving their understanding of threats and taking action with a **preventive, proactive approach** in mind to ensure the quickest possible response times in the event of an actual threat.

## OUR PARTNERS... OUR ECOSYSTEM... OUR ADDED VALUE

Stormshield is also **a worldwide network of certified partners operating in more than 40 countries**, forming a network of trust that enables us to deliver on our promises. Selected to meet exacting standards, and working in close partnership with our teams, they will offer you peace of mind through their close partnership and ensure the quality of our services.
